Effective from:

General provisions

KELER KSZF Központi Szerződő Fél Zrt. (hereinafter: KELER CCP Central Counterparty Ltd.) (hereinafter referred to as KELER CCP) as central counterparty operating pursuant to the Capital Market Act guarantees the settlement of regulated market and gas market transactions and is entitled to charge fees in line with the provisions of this regulation in relation to clearing and guarantee undertaking and energy market non-clearing membership clearing services in line with the General Business Rules of KELER CCP.

The chapters of the present Fee Schedule govern discounts and rebates and related terms applied by KELER CCP.

Fees are payable based on the invoice issued by KELER CCP on the first business day after the subject month. ~~NFKP-EP~~ market fees are payable based on the invoice issued after the monthly correction settlement. The invoice contains all services provided by KELER CCP in the subject month concerned, including late fees and the part of the default basic fee, the derivative default basic fee and the securities default basic fee due to KELER CCP.

Unless otherwise agreed with the customer KELER CCP issues electronic invoice on payable fees to the customer. KELER CCP will send the electronic invoice with increased security signature to the customer in e-mail.

Simultaneously with sending the invoice, based on authorization by the Client, KELER CCP charges payable fees to the account of the Client.

Service fees listed in this Fee Schedule are exempt from VAT. Fees where VAT is shown separately are exceptions to this provision.

When determining fees one basis point (bp) equals one hundredth of one percentage point (1 bp = 0,01%).

Default interest

In case of any delay in payment of fees specified in this Fee Schedule and of any receivables of KELER CCP under any title pursuant to the General Business Rules, KELER CCP will charge default interest. The default interest rate is twofold of the prevailing National Bank of Hungary (NBH) base rate.

Clearing membership

1.	Clearing membership service	Fee	KELER CCP General Business Rules	Code

	CEEGEX market clearing membership ⁷	HUF 200 000 / clearing member / month / market	3.2.3.2.	

Notes:

¹ The clearing membership fee is charged to the general clearing member by the markets defined in Point 3.5.2. of the General Business Rules of KELER CCP from the time the contract is approved by KELER CCP. KELER CCP charges the fee for the full period for the broken month also.

² The clearing membership fee is charged to the individual clearing member by the markets defined in Point 3.5.2. of the General Business Rules of KELER CCP from the time the contract is approved by KELER CCP. KELER CCP charges the fee for the full period for the broken month also.

³ The clearing membership fee is charged to the clearing member with clearing membership in the BSE Commodities Section exclusively, for the market defined in Point 3.5.2. of the General Business Rules of KELER CCP from the time the contract is approved by KELER CCP. KELER CCP charges the fee for the full period for the broken month also.

⁴ The non-clearing membership fee is charged to the general clearing member for the non-clearing members it reported, by the markets defined in Point 3.5.2. of the General Business Rules of KELER CCP from the time the contract is approved by KELER CCP. KELER CCP charges the fee for the full period for the broken month also.

In the case of the segregated non-clearing member it is payable in addition to the non-clearing membership fee from the time the KELER CCP acknowledges the advice. KELER CCP charges the fee for the full period for the broken month also.

⁶ Charged to the gas market clearing member for the cash market defined in Point 3.5.2. of the General Business Rules of KELER CCP from the time the KELER CCP acknowledges the advice. KELER CCP charges the fee for the full period for the broken month also.

⁷ The clearing membership fee is charged to the CEEGEX clearing member for the futures market defined in Point 3.5.2. of the

General Business Rules of KELER from the time the KELER CCP acknowledges the advice. KELER CCP charges the fee for the full period for the broken month also.

Example – calculation of clearing membership fees

A general clearing member is clearing member in the following sections/ranges of transactions: BSE equities section, debt section, equities transactions, financial transactions and BSE commodities section within the derivatives section of BSE, and MTS market clearing membership.

The amount of clearing membership is HUF 200 000 per month for the equities and / or debt instruments section and for MTS market membership + HUF 200 000 monthly for the equities and financial transactions of the derivative section and for the commodities section, that is the total clearing membership fee is HUF 400 000 / month.

If the same clearing member has one non-clearing member in the BSE equities section, debt section, equities and financial transactions within the derivative section of BSE, and has another non-clearing member in BSE equities transactions, the non-clearing membership fee will be as follows.

The amount of non-clearing membership fee is HUF 100 000 monthly for the equities / debt instruments sections + HUF 100 000 monthly for equities and financial transactions within the derivative section + HUF 100 000 for the other non-clearing member, that is altogether the total non-clearing membership fee is HUF 300 000 / month.

If a non-clearing member of the clearing member is a segregated non-clearing member in the BSE equities range of transactions, furthermore, the clearing member has one segregated client in the equities and/or debt section and also in the derivative market, the sum of the individually segregated non-clearing member and segregated client fee of the clearing member is HUF 150 000 / month.

If the general clearing member has MTS market clearing membership only, the clearing membership fee is HUF 200 000 / month.

An individual clearing member has clearing membership in the following sections/ranges of transactions: BSE equities section, debt section, equities and financial ranges of transactions within the BSE derivatives section and BSE commodities section, and MTS market clearing membership

The clearing membership fee is HUF 150 000 monthly for the equities and debt section and the MTS market membership + HUF 150 000 monthly for the equities and financial ranges of transactions of the derivatives section and for the commodities section, thus the clearing membership fee is HUF 300 000 per month.

If a clearing member (general or individual) has clearing membership in the BSE Commodities Section only, the clearing membership fee is HUF 100 000 per month.

If the gas market clearing member has clearing membership in the NFKP-EP only.

The clearing membership fee is HUF 200 000 during the term of the clearing membership agreement.

If a gas market clearing member has clearing membership in NFKP-EP and the spot markets of CEEGEX, the clearing membership fee is HUF 200 000 / month.

If the gas market clearing member has clearing membership in ~~NEKP-EP~~ and the spot and physical futures markets of CEEGEX also, the clearing membership fee is HUF 400 000 / month.

Non-clearing membership

2.	Non-clearing membership service	Fee	KELER CCP GBR	Code
	Energy market non-clearing membership ⁸	HUF 200 000 / non-clearing member / month / market	9.3.	A11 / A21
<p>Note:</p> <p>⁸ The non-clearing membership fee is charged to the energy market non-clearing member for the market defined in Point 9.5.2. of the General Business Rules of KELER CCP.</p>				

Example – energy market non-clearing membership fee calculation

An energy market non-clearing member has energy market non-clearing membership in the day-ahead energy market only. The energy market non-clearing membership fee is HUF 200 000 per month during the term of the non-clearing membership agreement.

Another energy market non-clearing member has energy market non-clearing membership in the day-ahead and futures markets also. The monthly energy market non-clearing membership fee is 2 x HUF 200 000, that is HUF 400 000 / month.

Spot Market, BSE MTF Market and MTS Market (Multinet market)

3.	Spot Market, BSE MTF Market and MTS Market Services	Fee	KELER CCP General Business Rules	Code
	Multinet transaction^{9,10}		4.5.	
	Up to 250 000 transaction per year	HUF 75 / transaction		
	Between 250 001 and 500 000 transaction	HUF 70 / transaction		
	Above 500 004-000 transaction	HUF 65 / transaction		
<p>Notes:</p> <p>⁹KELER CCP charges the fees for HUF and foreign currency based transactions to both the buyer and the seller.</p> <p>¹⁰ The tiered fee is determined based on the total turnover of the transactions the clearing member made in the calendar year and rebates are paid until 15 January of the following calendar year.</p>				

Example – Calculation of spot market, BSE MTF market and MTS market fee

A clearing member concludes the following guaranteed regulated market transactions on the same day:

- 16 Buy transactions for OTP equities
- 32 Sell transactions for MOL equities
- 16 Buy transactions for BUXETF
- 32 Sell transactions for government securities
- 10 Buy transactions for corporate bonds

Altogether: 106 transactions.

Fees due: 106 transactions * HUF 75 / transaction = HUF 7.950 **Example – Rebates calculation**

The total number of deals made by the clearing member is 650.000.

Tiers	Number of transactions in the tier	Fee	Adjusted fee	Rebates
0-250 000	250 000	HUF 75 / transaction	HUF 18 750 000	HUF 0
250 001-500 000	250 000	HUF 70 / transaction	HUF 17 500 000	HUF 1 250 000
500 001-	150 000	HUF 65 / transaction	HUF 9 750 000	HUF 1 500 000
	650 000		HUF 46 000 000	HUF 2 750 000

In line with the above example during the business year the clearing member pays transaction fee at HUF 75 / transaction and at the beginning of the following year rebates in the amount of HUF 2.750.000 are credited to the clearing member.

Derivative market

All transactions that result in closing open positions are position closing. „Day trade” fees are charged for the sell side of transactions of the same type – futures or options - that are made on the same day, based on BSE dealing and are of opposite direction but do not influence open positions.

	Turnover fee ¹⁴	HUF0,0027/MJ	5.1.5.1.	G02 G04 G06 G08
<p>Note:</p> <p>¹⁴ The turnover fee is payable monthly in arrears, based on the invoice issued following the settlement of correction data.</p> <p>For NFKP-EP market and correction imbalance trades and the closed month correction trades KELER CCP charges fees to</p>				

both the seller and the buyer.				
	Invoicing fee pursuant to an order	HUF 10 000/month+VAT	5.1.6.	Manual invoice

Example – Calculation of ~~NFKP-EP~~ market guarantee fee

One day the ~~NFKP-EP~~ market clearing member makes the following transactions on the ~~NFKP-EP~~ market and has the following imbalance transaction created by KELER CCP:

- 432.000 MJ buy transaction MGP
- 54.000 MJ sell transaction HEG
- 216.000 MJ buy transaction KAP
- 900.000 MJ sell MGPEGY (imbalance transaction)

Total: 1.602.000 MJ

Fee to be charged: 1.602.000 MJ * 0.0027 Ft/MJ = HUF 4 325.4

CEEGEX market

6.	CEEGEX market service	Fee	KELER CCP GBR	Code
	Turnover fee in spot market ¹⁵	HUF 3,0 /MWh	5.1.5.2.	
	Turnover on physical futures market ¹⁵	HUF 0,75 /MWh	5.1.5.2.

Note: ¹⁵ KELER CCP charges fees for CEEGEX market transactions to both the seller and the buyer.				
	Invoice issuance fee, based on authorization	HUF 10 000 /month+VAT	5.1.6.	Manual invoice

Example – Calculation of CEEGEX market guarantee undertaking fee

A CEEGEX market clearing member concludes the following transactions at the spot market:

- 200 MWh Buy Day-ahead Auction
- 150 MWh Sell Day-ahead Auction

Total: 350 MWh

Fee charged: 350 MWh × HUF 3,0 /MWh = HUF 1 050

A CEEGEX clearing member concludes the following deals on the physical futures power market:

- 2 contracts Sell July, 2013, monthly Base load product
- 3 contracts Buy Q2 2013 quarterly Base load product

Total: $2 \times 744 \text{ MWh} + 3 \times 2.208 \text{ MWh} = 8.112 \text{ MWh}$

Fee charged: $8.112 \text{ MWh} \times \text{HUF } 0.75 / \text{MWh} = \text{HUF } 6\,084.4$

Physical settlement of physical futures product

- 2 contracts Sell July, 2013 monthly Base load product (first delivery date: 01.07.2013.)

Fee charged: $8.112 \text{ MWh} \times \text{HUF } 3.0 / \text{MWh} = \text{HUF } 24.336,0$

Energy market

	Above TWh 1 per year ¹⁸	HUF 0.65 / MWh		
	Certificate delivery upon maturity (Guarantees of origin) ¹⁶		9.2	

	Up to TWh 0.5 per year ¹⁶	HUF 0.08 /MWh		
	From TWh 0.5 to TWh 1 per year ¹⁸	HUF 0.06 /MWh		
	Above TWh 1 per year ¹⁸	HUF 0.05 /MWh		
Notes: ¹⁶ KELER CCP charges fees for energy market transactions both for sell and buy transactions. ¹⁷ Tiered fees apply to the total turnover in physical delivery power transactions concluded by the energy market trader within the calendar year. Physical power deliveries from day-ahead market trades and physical power deliveries from futures trades are taken into account jointly. ¹⁸ Tiered fees apply to the total turnover of futures power trades concluded by the energy market trader in the calendar year.				

Example – Calculation of energy market non-clearing service fee

An energy market clearing member concludes the following transactions at the day-ahead power market:

- 200 MWh Buy Day-ahead Auction
- 150 MWh Sell Day-ahead Auction

Total: 350 MWh

Fee charged: 350 MWh × HUF 4.2 /MWh = HUF 1 470

An energy market clearing member concludes the following deals on the physical futures power market:

- 2 contracts Sell July, 2011, monthly Base load product
- 3 contracts Buy Q4 2011 quarterly Base load product

Total: $2 \times 744 \text{ MWh} + 3 \times 2.208 \text{ MWh} = 8.112 \text{ MWh}$

Fee charged: 8.112 MWh × HUF 2.1 /MWh = HUF 17 035,2

Physical settlement of physical futures product

- 2 contracts Sell July, 2011 monthly Base load product (first delivery date: 01.07.2011.)

Based on deliveries to be made:

Number of contracts x number of days x number of hours, that is $2 \times 31 \times 24 = 1\,488 \text{ MWh}$

Fee charged: 1 488 MWh × HUF 4,2 /MWh = HUF 6 249,6

Example – calculation of tiered fees:

During one calendar year the joint turnover in the day-ahead market and futures transactions with physical settlement of the energy market non-clearing member reaches TWh 0.5, in this case the monthly turnover fee is calculated in line with the applicable tiers:

- from TWh 0.5 up to TWh 1 the turnover fee of each additional contracted and physical delivery MWh is HUF 3,2 / MWh.
- Above TWh 1 the turnover fee of each additional contracted and physical delivery MWh is HUF 2,8 / MWh.

Annual turnover: TWh 1,5 (based on day-ahead and futures physical deliveries)

Annual turnover fee (based on monthly invoices):

Up to TWh 0,5: 500.000 MWh × HUF 4,2 /MWh = HUF 2 100 000

From TWh 0.5 up to TWh 1: 500.000 MWh × HUF 3,2 /MWh = HUF 1 600 000

Over TWh 1: 500.000 MWh × HUF 2,8 /MWh = HUF 1 400 000

The turnover of an energy power market non-clearing member reaches TWh 0.5 during the calendar year due to open futures transaction turnover, in this case monthly turnover fee shall be charged in line with the applicable tiers

- from TWh 0.5 up to TWh 1 the turnover fee of each additional contracted open futures position MWh is HUF 1,6 / MWh.
- Above TWh 1 the turnover fee of each additional contracted and physical delivery MWh is HUF 1,4 / MWh.

Annual turnover: TWh 1,5 (based on open positions)

Annual turnover fee (based on monthly invoices):

Up to TWh 0,5: 500.000 MWh × HUF 2,1 /MWh = HUF 1 550 000

From TWh 0.5 up to TWh 1: 500.000 MWh × HUF 1,6 /MWh = HUF 800 000

Over TWh 1: 500.000 MWh × HUF 1,4 /MWh = HUF 700 000
